

NATIONAL COORDINATION

KEY ACHIEVEMENTS AND GOALS

MINISTRY OF ECONOMY OF UKRAINE

National Coordination and Ownership

National Mine Action Strategy

Was developed to outline a joint vision for the Governmental and international technical and donor stakeholders for Mine Action in Ukraine for the next 10 years. It focuses on 3 strategic objectives: land release, protection of the people and system improvement.

Implementation Plan

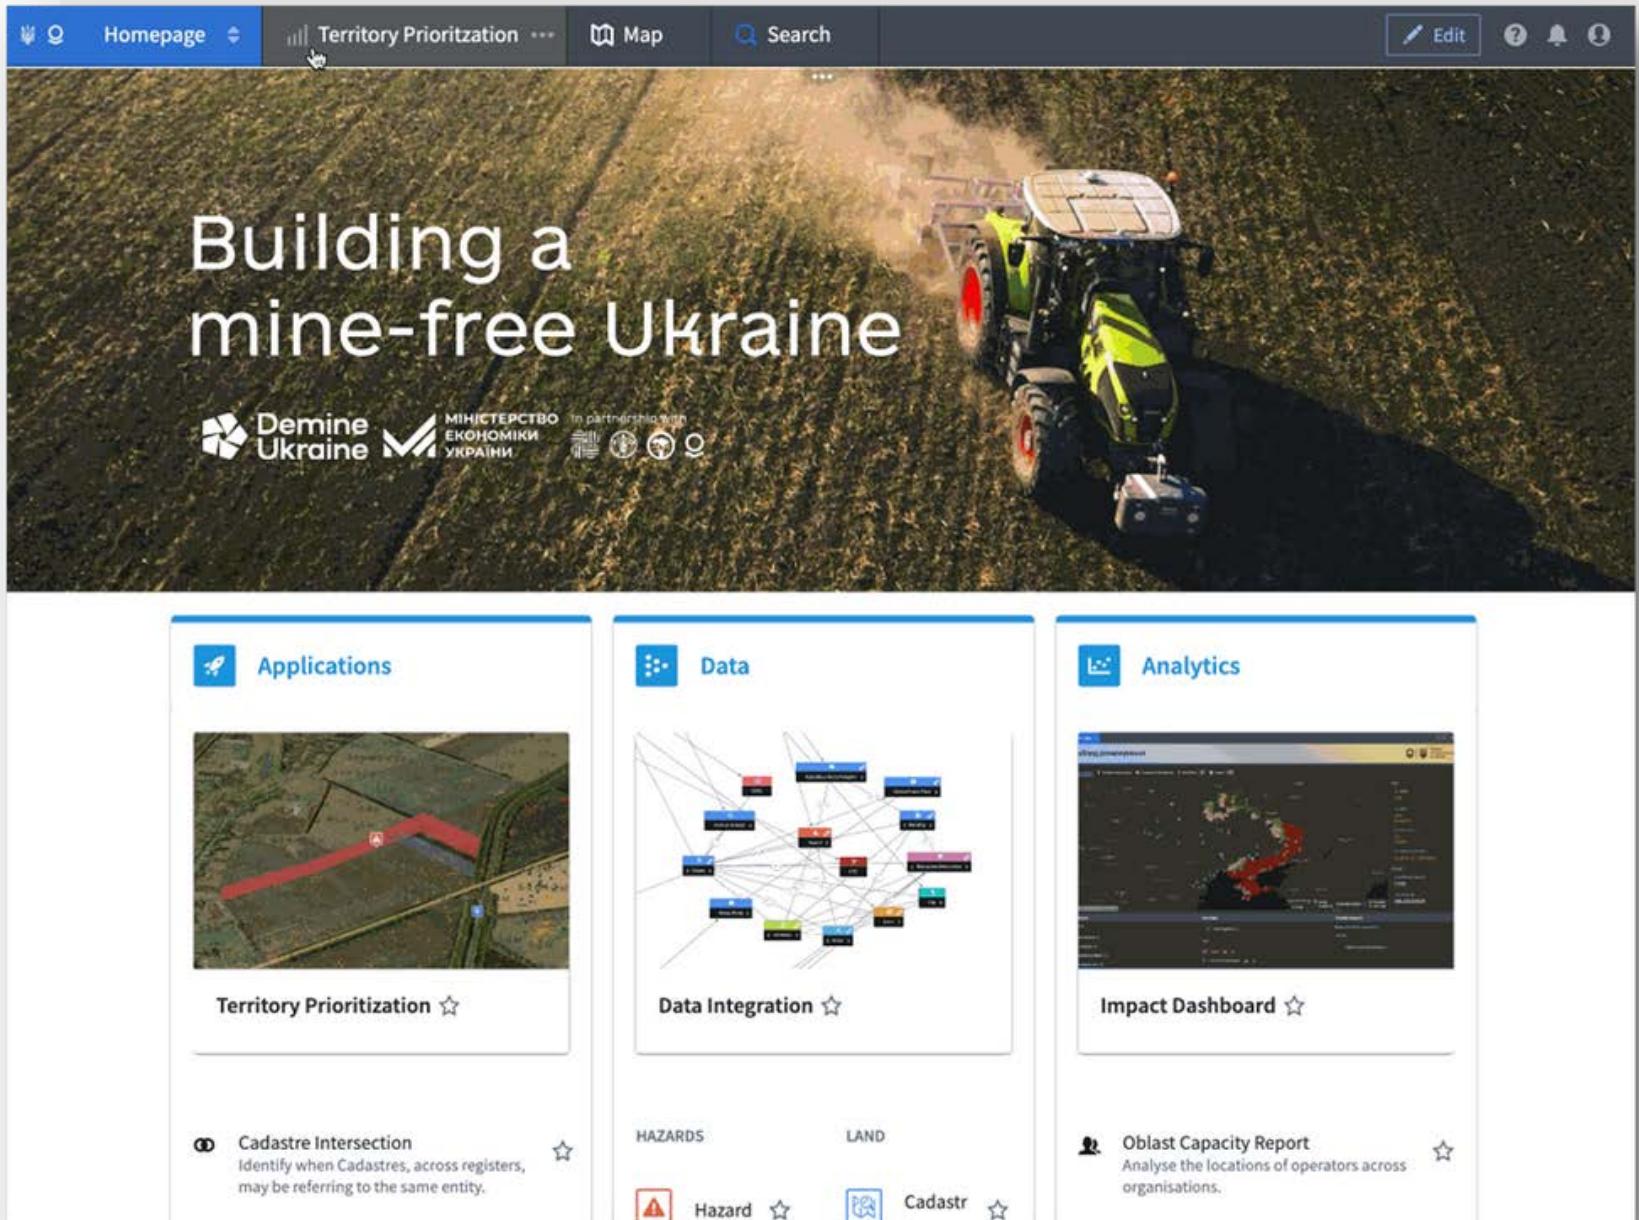

Serves as integral part of the Strategy. Provides clarity on the action points necessary to reach the objectives, responsible stakeholders, and timelines for the next 3 years. Will be updated for each new term of 3 years.

Multilevel Coordination

Donor Sectoral Working Group - a single platform for effective coordination with partners on distribution of funding.
Cluster - consists of the monthly meetings for exchange on the latest development and progress and ad-hoc problem focused working groups.

01 Prioritisation of tasking

A model of automatic prioritisation system based on the economic, social and environmental data. Together with Palantir it will offer a defined list of priority plots to demine.

02 Needs collection and ranking

A single depository of the resource needs of the national operators and governing authorities in the field of Mine Action ranked according to urgency and impact. A tool for transparency and accountability on the employment of resources.
