## RESPONSIBLE ANIMAL INTERACTION IN UN COMPOUNDS IN SOMALIA

The diverse population of animals present in the UN compounds in Somalia plays a crucial role helping:

- **Ensure effective pest control**
- **Maintain an ecological balance**
- **Support the mental and physical well-being of staff**

With this in mind, it is important that animals in the compounds are treated in a humane manner to contribute to a harmonious living/working environment.

Policies for UN missions clearly state: “Each Peacekeeping Operation and Special Political Mission shall uphold the principle of do no harm.”

***Any form of physical abuse of animals is not permissible and can result in administrative or disciplinary action.***

***-Please be humane to animals.-***

For any issues to raise or report, please contact the UNSOS UNSOM “I care” team:
